

Mateusz Laskowski

Software Engineer based in Poland, Warsaw with over 2 years of work experience. Strongly focused on backend development with interest in AI/ML. Proficient in Docker and certified in both AWS and GCP on Associate level. I want to understand the systems in bigger picture not only the server-side, because of that I am continuously learning also the client-side programming and DevOps practices. Advanced English speaker with CAE certificate (C1 Level). Experienced in agile SDLC with focus on high-quality, well tested code. In my free time I mainly like to program in Go, learn ML stuff and do sports - I was a professional waterpolo player for about 8 years. I like to learn new technologies and am trying to be tech-stack agnostic.

Work Experience

Junior Software Engineer, EPAM Systems

June 2025 - Present

- Working mainly as a backend developer with C# 12, .NET 8
- Infrastructure development using HashiCorp Terraform and AWS Services
- Developing new features using TDD approach, implementing unit tests with xUnit, Autofixture and Moq
- Performing regular demo sessions for project stakeholders
- Maintaining documentation, working in an Agile methodology, collaborating closely with the QA, BA and DevOps teams
- Integrating with other internal APIs and external systems
- Working on a fully cloud native event-driven AWS-based infrastructure with daily use of services like DynamoDb, SQS, Lambda, CloudWatch, Elasticache/Redis cache, API Gateway, S3, Systems Manager, OpenSearch

Software Engineer, Startup Founders Stars

Jan 2026 - Present

- I am fully responsible for the server-side application that is backing a mobile app used during events attended regularly by ~300 people and other infrastructure services used by the Startup Founders project and its community
- Python, FastAPI, PostgreSQL, Go, AWS SDK for Go, Terraform, API Gateway, Lambda, DynamoDB, EventBridge, TypeScript, React

Software Engineer Intern, Grid Dynamics

Nov 2024 - May 2025

- Participating in Java Internship program
- Learning and working on a microservices architecture based project
- Writing well tested server-side code with Java 21, Maven, Spring Boot, Spring Data JPA, Spring Security, Hibernate, JUnit, Mockito
- Successfully implemented CI/CD workflow for a microservice using HashiCorp Terraform, GitLab CI/CD, GCP Cloud Run, GCP Cloud SQL

Junior Software Engineer, Atinea Sp. z o. o.

Feb 2024 - Nov 2024

Working in 3 different projects during the time.

- Web app utilizing Java 8, Spring Framework and JSP (2 months)
- Facility management system in C# and .NET Framework with WCF, this project involved work with low-level programming like Serial communication and debugging ASM code (4 months)
- Web app, where I worked mostly on the client-side using TypeScript with React, Redux and Sass for styling (2 months)

Social Activities & Personal Projects

- Member of Machine Learning Collective students organization which is focused on gathering students interested in ML to share experiences, learn together and work on projects, for example we were working on a RAG-based chat app with university study materials.
- Participating in hackathons and tech events, for example the AI Tinkerers x OpenAI Warsaw Hackathon, this year took 2nd place at the GS Warsaw Hackaton in Software Engineering discipline. Regularly engaging in workshops on AI, cloud, and modern web technologies.
- Built several personal projects, all available on my [GitHub](#)
- Worked for a year on a card game project within a team of students, I was responsible for CLI tools development in Rust

Education

Bachelor of Engineering

Polish-Japanese Academy of Information Technology, Warsaw, Poland

Sep 2023 - Feb 2027

- Specialization: Data Science and Intelligent Systems

Contact

Skills

Programming Languages

- C#
- Python
- Go
- JavaScript/TypeScript
- SQL / T-SQL

Libraries/Frameworks

- .NET 8, Entity Framework Core, AWS SDK for .NET, ElasticSearch SDK for .NET, Automapper, xUnit,
- Gin, GORM, AWS SDK for Go
- React, Redux, Next.js, tRPC, T3 Stack, Tailwind CSS
- FastAPI, Numpy, Pandas, opencv, matplotlib, scikit-learn, PyTorch

Databases

- PostgreSQL
- MySQL
- Microsoft SQL Server
- DynamoDB

Cloud & DevOps

- AWS
- Google Cloud Platform
- Docker
- Terraform
- Git, Github, GitLab
- Azure DevOps, Github Actions
- Jira, Confluence

Languages

- Polish (Native)
- English (Advanced)

Certification

- [AWS Certified Developer - Associate](#)
- [AWS Certified: AI Practitioner](#)
- [HashiCorp Certified: Terraform Associate](#)
- [Claude Certified Architect](#)
- [Google Cloud Associate Cloud Engineer](#)
- [Google Cloud Digital Leader](#)
- [Microsoft Certified: Azure Data Fundamentals](#)
- Cambridge CAE Certificate in Advanced English (C1 Level)
